Hiring Manager
Info-Tech Research Group
345 Ridout Street North, London, Ontario

Dear Hiring Manager,
I'm excited to apply for the Business Development Representative role at Info-Tech Research Group. With a background in finance, client account management, and building a business from the ground up, I bring a track record of turning conversations into long-term relationships and ideas into measurable growth.

At Redefine MD, I managed a portfolio of 100+ client accounts, driving higher retention through tailored consultations and streamlining communication workflows that cut response times by 30%. That role taught me the importance of listening first, solving quickly, and building trust at every touchpoint.

Outside of client management, I launched Alert Index, a direct-to-consumer Shopify brand that generated over $100K in global sales. Running the business required persistence, creative prospecting, and data-driven decision making skills that I would be open to apply directly to building pipeline and driving conversion at Info-Tech.

I'm drawn to Info-Tech's reputation as one of Canada's fastest-growing research firms, and I thrive in competitive, team-oriented environments. Winning 1st place in the Western University portfolio management competition showed me the value of preparation and resilience, qualities I would bring to every prospecting call, pitch, and client interaction.

I'd welcome the chance to bring this mix of client focus, entrepreneurial drive, and competitive energy to Info-Tech's business development team. Thank you for your time and consideration, I look forward to the opportunity to contribute and grow with your team.

Sincerely,
Granit Rrafshi
